PROGRAM REPORT

Tree Plantation Program at Tribhuvan University, Kirtipur

Overview

Rotary Club of Rudramati Kathmandu organized a Tree Plantation Program on **25 July 2026** at the **Central Departments of Nepali and English, Tribhuvan University, Kirtipur**. The initiative brought together Rotarians, Rotaractors, Interactors and guests in a collective effort to promote environmental responsibility and develop a greener campus environment.

Key Activities

- Plantation of approximately **300 saplings** across the designated university premises.
- Planting of flowering and ornamental varieties, including **rose, bougainvillea and other suitable plants**.
- Active participation of Rotarians, Rotaractors, Interactors and guests in digging, planting and protecting the saplings.
- Installation of protective tree guards for selected plants to support their healthy growth.
- Promotion of long-term environmental awareness and community involvement.

Impact

The program contributed to increasing green cover within the university premises while encouraging young people and community members to take practical responsibility for the environment. The participation of Interactors and Rotaractors also strengthened Rotary's spirit of service and intergenerational community engagement.

Service Highlight

Approximately 300 plants were planted with the shared commitment to nurture a greener, healthier and more sustainable campus.

Participation & Collaboration

The program was supported through the active participation of Rotarians, Rotaractors, Interactors and invited guests. Their collective effort made the plantation activity meaningful and community-focused.
